[Best Memory For Mac](#)

The screenshot displays the 'FreeRAM Booster 2' application window. The window title is 'FreeRAM Booster 2' and it has a menu bar with 'File', 'View', 'Window', and 'Help'. The main interface includes a settings panel with the following options:

- Enable auto-RAM Recover service
- Freeing up RAM when current free RAM lower than MB
- Freeing up MB every minutes if free RAM below MB
- Only start auto-RAM Recover if CPU usage below %

Below the settings is a graph showing free memory usage over time. At the bottom of the window, there is a 'Clean Physical Memory (RAM)' button. The desktop background features a large white text overlay:

**The most advanced
memory optimiser app
on Mac OS X**

Memory can be cleaned automatically
if free memory falls below a certain level

The dock at the bottom contains icons for various applications, including a blue icon with a white 'S', a silver icon with a white 'R', a blue icon with a white 'A', a blue icon with a white 'N', a blue icon with a white 'M', a blue icon with a white 'P', a blue icon with a white 'N', a blue icon with a white 'M', a blue icon with a white 'P', and a silver trash can icon.
